

# Continuing diabetes education

## Insulin beyond basal

---

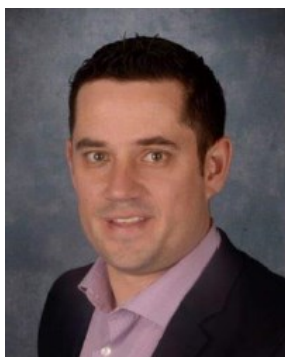

### Insulin titration, premixed insulins, bolus doses, and correction plans.

Narrows convention center

Wednesday 9th October

5:30 pm dinner

for a 6:30 pm start.

Dr Ryan Paul is an Endocrinologist at the Waikato DHB and a senior lecturer at the university of Waikato. He is current president of the New Zealand Society of Endocrinology and a member of the executive committee of the New Zealand Society for the Study of Diabetes.

Earlier this year, Ryan spoke about Type 2 Diabetes and oral medication options. This evening will carry on from there, with the next steps in insulin management after basal insulin is introduced.
