

Well Child Workshop and Conference: Register now!

When: Thursday 19 & Friday 20 November, 2020

Where: Holiday Inn, Rotorua

The theme for this event is Pōhutu.

Pōhutu is the largest active geyser in the Southern hemisphere and situated in the picturesque geothermal valley of Whakarewarewa, just metres from the venue for Well Child Tamariki Ora Workshop and Conference.

This global landmark and the surrounding area receive strength and warmth from Papatūānuku (Earth Mother). The waters and energy from below provide the region with healing and therapeutic resources which not only bring wellness but also a connection through the geothermal network that links not just New Zealand and the Pacific, but the World to this special place.

We hope that our Workshop and Conference provides a similar source of wellness and connection, bringing warmth to you all.

Expressions of interest to attend the Workshop
and registrations for the Conference are open now!
Be quick to secure your place.

Also an opportunity to share your successes and challenges

We would love to receive more submissions to present at the Conference. These presentations are to small supportive audiences of your colleagues. An excellent opportunity to share your successes and challenges! Visit the website to find out more.

Feel free to [email Donna directly](#) if you'd like any advice on this.
