Heart Failure Management – Keeping your Heart Failure Patients out of Hospital.

Heart Failure GP Educational Webinar.

 **NOVARTIS** Supporting Medical Education

Synopsis:

Treatments for Heart Failure (HF) are changing and evolving. Primary care plays a crucial role in the management of heart failure patients.

Dr Shakiya Ershad, Heart Failure Cardiologist from Auckland Hospital, will give an overview of HF treatments and what primary care can do for their HF patients to keep them out of hospital and feeling better.

The discussion will be chaired by Dr Stanley Koshy, a Hamilton based General Practitioner, and will be focused on the practical needs of caring for these patients.

Speaker:
Dr Shakiya Ershad,
Cardiologist,
Auckland DHB

Chair:
Dr Stanley Koshy
GP, Hamilton

Date:

Wednesday, 24th November 2021, 7-8pm
