Heart Failure Management - Making a Difference for your Heart Failure Patient in 2021.

Heart Failure GP Educational Webinar.

 **NOVARTIS** Supporting Medical Education

Synopsis:

The prevalence of heart failure is rising with the ageing population. GPs play a crucial role in the care of heart failure patients and see these patients frequently.

Dr Mark Davis, Cardiologist Waikato, will give an overview of heart failure and what a GP should know and can do for these patients in 2021, including information on improving a patient's quality of life, reducing mortality risk and reducing hospitalisation risk.

The discussion will be chaired by Dr Richard Medicott, General Practitioner from Island Bay, Wellington, and focused on the practical needs of caring for heart failure patients in primary care.

Speaker:
Dr Mark Davis,
Cardiologist,
Waikato DHB

Chair:
Dr Richard
Medicott
GP, Wellington

Date:

Tuesday, 6th July 2021, 7-8pm
